Neuroprotective in human neuroblastoma cells.

Interested students are welcome to participate in the competition for a proposal of a retrosynthesis/forward synthesis of this natural product. To prepare a proposal teams of three would be ideal.

More detailed information can be obtained from the group or just come in. A short note of participation would be nice so that we can prepare properly.

When: Thursday, 17.10.2019, 18.00
Where: Seminar room 4th floor, building B.
